

# MARCH *in the Gardens*

## RIGHT NOW'S THE TIME!

- Magnolias, located at the Gatehouse, Mid Pond, Glen and Japanese Garden, are starting to bud in anticipation of their mid-spring floral show.
- Bloedel's Willow Tree on Mid Pond is bright and beautiful right now, as its new growth offers a yellow glow.
- Visit the Birch Garden to enjoy the trees' white bark, which really pops in late winter and early spring, before the new foliage begins to emerge.
- The Moss Garden shines at this time of year! The cool, moist weather, coupled with dappled sunlight through a lighter deciduous tree canopy can truly make this primeval landscape sparkle.

## IN BLOOM THIS MONTH...

- Cornelian Cherry | Japanese Garden
- Crocus & Daffodil | Buxton Bird Marsh & Meadow
- Cyclamen | Glen & Japanese Garden
