

LATE APRIL

in the Gardens

BLOEDEL
RESERVE

RIGHT NOW'S THE TIME!

- The Glen is a must see from mid-March through June. Early blooming Rhododendrons are in full color with many more to follow over the next few months. Spring ephemerals are popping up and little treasures can be found throughout.
- More than 12 different species of Magnolias are found throughout the grounds, and will be blooming through June. The Saucers and Stars are in full bud and should open in the coming days.
- In the Mid Pond, Gunnera leaves are beginning to emerge. By June, the leaves will grow to almost 4 feet across!
- The bright yellow flowers of the skunk cabbage pop in the Moss Garden.
